BASED IN Tehran, Iran

A RESEARCH PROFILE

I develop additive manufacturing processes and test what the printed parts can carry. My doctoral research is on volumetric additive manufacturing, including hybrid injection–volumetric printing of opaque, filled and low-viscosity resins. My master's work produced a biodegradable surgical mesh by direct ink writing with continuous PGA fibre embedded during printing. Interests: additive manufacturing, volumetric AM, mechanical metamaterials, composites, biomechanics, and machine learning in AM.

B EDUCATION

Sep 2026 – present
Ph.D., Mechanical Engineering
Tarbiat Modares University, Tehran · Thesis: volumetric additive manufacturing · Advisor: Dr. Amirhossein Behravesh

2023 – 2026
M.Sc., Mechanical Engineering
Tarbiat Modares University, Tehran · Thesis: *Fabrication of a surgical mesh reinforced with continuous polyglycolic acid fibres by direct ink writing, and evaluation of its mechanical and biological properties* · Advisor: Dr. Amirhossein Behravesh

2020 – 2023
B.Sc., Automotive Mechanics Technology
Islamic Azad University, Yadegar Emam branch · Thesis: *Design of an 18-metre telescopic conveyor belt for unloading truck trailers* · Advisor: Dr. Amir Khorram

Under review — Journal manuscript on the PGA-fibre-reinforced DIW surgical mesh, submitted to *Biomedical Materials & Devices*.

D RESEARCH EXPERIENCE

2023 – present
Graduate researcher, additive manufacturing
Tarbiat Modares University. Adapted a DIW printer for continuous-fibre printing; volumetric and hybrid injection–volumetric printing; mechanical, rheological, chemical and in-vitro testing.

Mar 2022 – Jan 2023	**Print pattern optimisation in additive manufacturing** Research project
Nov 2022 – Feb 2023	**Portable dry-mix batching plant** Islamic Azad University, Yadegar Emam branch · Advisor: Dr. Khorram
Sep – Nov 2022	**Medical chair design** Islamic Azad University, Yadegar Emam branch · Advisor: Dr. Khorram
Apr 2021 – Aug 2022	**Research assistant, vertical wind turbine design and construction** Islamic Azad University, Yadegar Emam branch · Supervisor: Dr. Shakoori
Sep 2020 – Mar 2021	**Cushion behaviour analysis, Rah Neshan competition** Supervised by the Vice Presidency for Science and Technology, National Elite Foundation · top-ten team
Jun 2018 – Dec 2019	**Research assistant, telescope mount deflection analysis** Institute for Research in Fundamental Sciences (IPM), Iranian National Observatory R&D team · Team leader: Mr. Surena Fatemi · Advisor: Dr. Khosroshahi

E TEACHING

Apr – Jul 2022	**Teaching assistant, Machining Workshop** Islamic Azad University, Yadegar Emam branch · Dr. Nouri
Jan – May 2022	**Teaching assistant, Vehicle Dynamic Vibration** Islamic Azad University, Yadegar Emam branch · Dr. Khorram

F INDUSTRY & SERVICE

Industry	**Engineer, APPACO** Automotive industry
Industry	**SAPCO** Automotive industry
Jun – Jul 2024	**Executive committee, 7th International Conference on Nondestructive Testing** Iranian Society of Nondestructive Testing (IRNDT) · mechanical engineer
2022, 2024	**Executive committee, 12th and 13th International Conferences on Internal Combustion Engines and Petroleum** Iran Khodro Powertrain Company (IPCO) · mechanical engineer
Apr – Nov 2017	**Race engine mechanic** Motorcycle and Automobile Federation of Iran (MAFIRI) · tuned and upgraded engines for competition

G SKILLS & TRAINING

DESIGN	SolidWorks, CATIA, Shapr3D, AutoCAD, GD&T
SIMULATION	Abaqus, ADAMS, COMSOL Multiphysics, SolidWorks Simulation
COMPUTING	MATLAB, Python, machine learning, LaTeX
LAB	DIW, FDM, DLP, volumetric AM; tensile and burst testing, rheometry, ATR-FTIR, SEM, MTT
CERTIFICATES	Machine Learning 2024 · GD&T 2023 · CATIA 2023 · Python 2022 · MATLAB (Univ. of Tehran) 2021 · SolidWorks 2021
MEMBERSHIPS	Iranian Society of Nondestructive Testing · Society of Manufacturing Engineering of Iran · Researchers and Elites of Islamic Azad University
LANGUAGES	Persian (native), English (fluent)
